**COMMUNICATION**

**RE: REPLACEMENT OF TERMINAL DISCLAIMERS**

MS Issue Fee  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Applicants hereby submit a terminal disclaimer with respect to U.S. patent 6,649,386 and co-pending applications 10/658,219 filed 8 September 2003; 10/679,723 filed 6 October 2003; and 10/681,948 filed 8 October 2003 as a replacement for that submitted 8 December 2003 with respect to application 08/875,796 filed 30 October 1998 now U.S. patent 6,649,386.

It has come to applicants attention that the boilerplate language in the previously filed terminal disclaimer filed 8 December 2003 failed to exempt possible extensions of term made on the

present application. The present substitute terminal disclaimer makes this correction. In addition, the name of the assignee has changed and has been recorded. The replacement terminal disclaimer corrects this as well.

Substitution of the enclosed disclaimer for that currently on file is therefore respectfully requested.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that an extension and/or other relief is required, applicants petition for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing docket No. 559662000101.

Respectfully submitted,

Dated: March 23, 2007
